In my opinion Table 5-1B in API-650, 11th Edition, Addendum 1 is correct as shown. This covers the case where a purchaser allows 6mm plate to be used where 1/4" would normally be shown. Alternatively, it could have stayed at 1/4" and used a footnote similar to that shown in 5.6.1.1 (footnote 3). Both work for me. Joe Tank

I am continuing to review Addendum 1 to the 11th Edition of API-650. Here are some comments on what I have found so far. 1) There are many slight modifications in the values used for SI units. Places that used to specify 12.5 mm now use 13 mm. In the table for 5.1.5.9(e), they have revised the angle size slightly.

The 11th Edition of API-650 is about to be released. I just received an email stating that the final review was completed today and it will be released (I assume to the printers). I would expect to see something in the next few weeks. At the meeting they indicated it would be released sometime in June and it appears that is going to happen.
