### **Biology — Characteristics of Life and Principles**

Basic Biology will introduce you to the fascinating study of the life on Earth. We will learn about the magnificent diversity of life – animals, plants, fungi and microorganisms – and the environments they inhabit. Through the study of life, we can gain a better understanding and appreciation of the natural world around us.

### **Basic Biology | Inspired by Life**

The fact that all living organisms share the same basic building block (the cell) is somewhat convenient for people studying biology. Discoveries made about the function of the cells of a fruit

fly or a mouse will often also apply to humans. Because of this, scientists can study fruit flies and gain insights into how our own cells function.
