Life science is one of the two major branches of natural science, the other being physical science, which is concerned with non-living matter. By definition, biology is the natural science that studies life and living organisms, with the other life sciences being its sub-disciplines. Some life sciences focus on a specific type of organism.

List of life sciences - Wikipedia

* Updated April 2019. Life Sciences explores nature and the human biology. It's also one of the most common exam papers that matric learners write. Here's a collection of past Life Sciences papers plus memos to help you prepare for the matric finals. (We also have a separate page for Physical Sciences.). We'd also like to tell you about our new free Grade 12 study guides.
