Trying to find the best car seat stroller combo can be a real pain in the tush - there are so many on the market, from ultra posh to super cheap. And many of them have few discernable differences beyond price. However, if you're shopping for a car seat, it's a good idea to shop for both seat and stroller at the same time. Not all strollers are compatible with all car seats.

A child safety seat is a seat designed specifically to protect children from injury or death during vehicle collisions. Most commonly these seats are purchased and installed by car owners, but car manufacturers may integrate them directly into their vehicle's design and generally are required to provide anchors and ensure seat belt compatibility.

### **Child safety seat - Wikipedia**

Almost everything we use or consume has an expiry date – from food, medicine, to milk and everything in between. And being the vigilant parents that we are, we always check the “best before” date before allowing ourselves and our kids to dig in.. But did you know that child safety seats expire, too?. While an infant or toddler car seat won’t sour or curdle like milk, they do lose their ...

Types. Infant Car Seat (Rear-Facing only): Designed for newborns and small babies, the infant-only car seat is a small, portable seat that can only be used rear-facing. Babies usually outgrow their infant car seats by 8 or 9 months. When that happens, we recommend that parents purchase a convertible or all-in-one car seat and use it rear-facing.
