Early childhood education (ECE; also nursery education) is a branch of education theory which relates to the teaching of children (formally and informally) from birth up to the age of eight which is traditionally about third grade. It emerged as a field of study during the Enlightenment, particularly in European countries with high literacy rates. It continued to grow through the nineteenth ...

We spend too much time and waste too much energy in futile attempts to change what we cannot change. It is a major cause of frustration and other forms of anger. The rational evidence for determining what we can change and what we cannot is overwhelming, but our behavior often tries to defy this reason and logic. Behavior based on the lower two levels of the architecture for interaction model ...
