A betting strategy (also known as betting system) is a structured approach to gambling, in the attempt to produce a profit. To be successful, the system must change the house edge into a player advantage — which is impossible for pure games of probability with fixed odds, akin to a perpetual motion machine. Betting systems are often predicated on statistical analysis.

### **Betting strategy - Wikipedia**

Some say that online roulette, while the perfect game of chance, can't be beaten in the long run. This is pure bull. To begin with, the casinos have it all wrong about online roulette.
