The Apple Watch wasn't an immediate hit, but it's improved a lot over the past four years.

Topic: apple articles on Engadget

where R_q is the quenching resistor, C_{SPAD} is the junction capacitance of the SPAD, and C_{node} is the total capacitance at the high-impedance SPAD node, beside the SPAD one (e.g. the parasitic capacitance of connections or the capacitance given by the quenching resistor, or quenching circuit). In analog SiPMs the capacitance at the node is mostly the one given by the integrated ...

Understanding and simulating SiPMs - ScienceDirect

I was in the market for a new cell phone and service provider over the weekend and I had narrowed my options down to Verizon or Cingular AT&T. I've had both services in the past and haven't really had any complaints about either.

AT&T vs Verizon - Compare Verizon & AT&T Wireless Service
