### **Feeding and Nutritional Management of Beef Cattle ...**

Data for Part I: Feedlot Management Practices were collected from August 1 through September 16, 1994. The USDA's National Agricultural Statistics Service (NASS) collaborated with VS to select a producer sample (3,214 feedlots) that was statistically designed to provide inferences to the nation's feedlot animal population. Included in the

### **Part I: Feedlot Management Practices - USDA**

Feedlot Management The price paid for feedlot cattle or their initial value (cost/kg), is a critical factor affecting the profitability of a feedlot enterprise, especially when a small or negative feed margin exists. A positive feed margin can only be realized with high mass gains and a relatively low cost of feed.
