Citing & Writing | Libraries & Archives

A style guide or manual of style is a set of standards for the writing, formatting and design of documents. It is often called a style sheet, although that term may have other meanings. These standards can be applied either for general use, or be required usage for an individual publication, a particular organization, or a specific field.

Back to top. Meta-analysis. These manuscripts are systematic, critical assessments of literature and data sources pertaining to clinical topics, emphasizing factors such as cause, diagnosis, prognosis, therapy, or prevention, and that includes a statistical technique for quantitatively combining the results of multiple studies that measure the same outcome into a single pooled or summary estimate.

Instructions for Authors - JAMA Network

The substantial reduction in smoking in the United States represents one of the most important public health advances of the last 50 years. Among children and adolescents this progress has been particularly encouraging, with smoking rates declining among 8th-, 10th-, and 12th-grade students from 28.3% in 1997 to 5.4% in 2017. 1 These positive trends suggest that the powerful appeal of tobacco ...

What is the APA Citation Style? The APA citation style (6th Edition) is a parenthetical author-date style, so you need to put the author's last name and the publishing date into parentheses wherever another source is used in the narrative. The APA format consists of in-text citations and a reference list, along with guidelines for formatting the paper itself.
