Vaccination for Hep B — Hepatitis Australia

Synopsis There are around 200,000 healthcare-associated infections (HAIs) in Australian acute healthcare facilities each year. This makes HAIs the most common complication affecting patients in hospital. As well as causing unnecessary pain and suffering for patients and their families, these adverse events prolong hospital stays and are costly to the health system.

Better Living with Chronic Obstructive Pulmonary Disease A Patient Guide The lungs What is the respiratory (or breathing) system? The respiratory system includes the upper and lower

Better Living with Chronic Obstructive Pulmonary Disease

Asthma (or Asthma bronchiale) is a disease that hurts the airways inside the lungs. It causes the tissue inside the airways to swell. Asthma also causes the bands of muscle around the airways to become narrow. This makes it hard for enough air to pass through and for the person to breathe normally. Asthma also causes mucus-making cells inside the airways to make more mucus than normal.
