Students will be able to access their course eTextbooks or Digital Content on the first day of classes through their online course. However, they are also given the opportunity to Opt-Out of using the Digital Text during the first two weeks of class which will cause them to lose access to the Digital Text. They will then be responsible for obtaining a print copy of the text.

The lymphatic system parallels the cardiovascular system (see the images below). The lymphatic system is unique, in that it is a 1-way system that returns lymph fluid via vessels to the cardiovascular system for eventual elimination of toxic byproducts by end organs, such as the kidney, liver, colon, skin, and lungs.

Lymphatic System Anatomy: Overview, Gross Anatomy, Other ...

A gonad, sex gland, or reproductive gland is a mixed gland that produces the gametes (sex cells) and sex hormones of an organism. In the female of the species the reproductive cells are the egg cells, and in the male the reproductive cells are the sperm. The male gonad, the testicle, produces sperm in the form of spermatozoa. The female gonad, the ovary, produces egg cells.
