The term "basis of accounting" is used to describe the timing of recognition, that is, when the effects of transactions or events should be recognized. The basis of accounting used for purposes of financial reporting in accordance with generally accepted accounting principles (GAAP) is not necessarily the same basis used in preparing the budget document.

1. Introduction. The editors of this journal kindly asked me to reflect on the last 25 years of social and environmental accounting (SEA) research, and in particular, Critical Perspectives on Accounting's (CPA's) contribution to the ongoing debate. As somebody who coincidentally has been publishing in this area for almost 25 years this was a fascinating request and one that required a deal ...
