There are many types of forces, but our answer choices include four types. In order to answer this question correctly, we need to be able to decipher between them. Applied force is a force that is applied by a person to an object. Gravity force is also known as the weight of the object. It's ...

8th Grade Science : Physical Science - Varsity Tutors

8th grade science fair projects tend to involve the scientific method and designing an experiment and not making models or explaining processes. You'll be expected to present data in the form of tables and graphs. Typed reports and posters are the norm (sorry, no handwritten text). You should do the project yourself, rather than enlist heavy-duty help from a parent or older student.
