Quality Planning Studio integrates the core quality tools and ensures adherence to fundamental process flow steps. ADVANCED PRODUCT QUALITY PLANNING (APQP)

Quality Planning Studio (PACT) | APQP & CONTROL TOOL ...

Advanced product quality planning is a system for manufacturing new products without defects. APQP requires that manufacturers design their new products with an eye on the elimination of flaws. PPAP is a related system for supervising the supply chain to eliminate flaws in product components.

Difference Between APQP and PPAP | Bizfluent

PPAP stands for Production Part Approval Process. It was developed by AIAG (the Automotive Industry Action Group) and it is an important part of the comprehensive Advanced Product Quality Planning (APQP) approach. There are five phases to APQP; PPAP is triggered in Phase 4, Product & Process Validation. On the surface, PPAP can appear to be [...]
