Zipson steel is a valve manufacturer, focus on 3-way, multi-way ball valve, special alloy ball valve and metal seated ball valves. Zipson also provide very good quality high pressure valve and flanged ball valves.

### **Zipson ball valves, stainless steel valves, investment ...**

A ball valve is a form of quarter-turn valve which uses a hollow, perforated and pivoting ball to control flow through it. It is open when the ball's hole is in line with the flow and closed when it is pivoted 90-degrees by the valve handle. The handle lies flat in alignment with the flow when open, and is perpendicular to it when closed, making for easy visual confirmation of the valve's status.

### **Ball valve - Wikipedia**

The GYLON ® Style 3500 is a high performance, silica filled PTFE sheet material designed for use with strong acids, solvents, hydrocarbons, and other aggressive media.

Plumbing is all about controlling water (and gas, and other things). When you want to control water, you need valves. There's a lot that goes into manufacturing and selecting the right valve for the occasion, so that when it comes time (e.g. the toilet is on the cusp of overflowing), all you need to do is bend down and give a turn to the handle without another thought: crisis averted!

### **Common Plumbing Valve Types - PlumbingSupply.com**

The GYLON ® Style 3510 is a high performance, barium sulfate filled PTFE gasketing material. GYLON ® 3510 PTFE gasket is designed for use in strong caustics and toxic chemicals, such as

chlorine, ammonia, and phosgene, where initiating and maintaining an extremely tight seal is critical. In addition, the GYLON® 3510 provides exceptional performance in monomer services.

Method 2: Remove the cap from the oil filler hole on the valve cover and place a stiff piece of paper over the opening. If your PCV valve is working properly, the paper should be sucked against the hole within seconds. If the valve doesn't seem to be working properly, before you go to the trouble to replace it, try cleaning it to see if that makes a difference.
