I've seen so much dispute about how to pronounce the Japanese "R". People seem to have narrowed it down to "D" and "L", even though it has always sounded like a regular "R" to me. Many Japanese speakers I've talked to have contradicted each other. I'm rather frustrated that there is so much debate over a silly letter, especially when the only sound I ever hear is the American "R" sound.

The American "R". It is often heard in the southern dialect of American English, and is at times over-used in Cockney English. In other words, the "r" is a tricky sound, pronounced differently in the languages that have it. Consider the "r" in Spanish, trilled in a way that many Americans struggle to master, or the "r" in French,...

ANSWER: $r = p^2 - kp$ where k is a constant of proportionality. Since $p \leq A$, the constant k must be positive so that the reaction rate is positive. The graph of this quadratic polynomial $r = p^2 - kp$ is a concave downward parabola (because of the negative coefficient $-k$ on p^2) with roots at $p = 0$ and A .

"The American" is one of the best movies of the year. However, I cannot guarantee that many people will agree with my statement. First of all, because a lot going in will be misled that this is a high-tensity action picture like "The Bourne Identity" and when they find out it's not, they will leave the theater feeling vastly empty.
