Home » PERT/CPM for Project Scheduling & Management. Basically, CPM (Critical Path Method) and PERT (Programme Evaluation Review Technique) are project management techniques, which have been created out of the need of Western industrial and military establishments to plan, schedule and control complex projects.

PERT/CPM for Project Scheduling & Management

History of PERT Charts. PERT in project management has been around for a while, but it in fact was developed in the U.S. Navy. In 1957, its Special Projects Office created the PERT chart to assist in its Polaris nuclear submarine project. Since then, it's found a home in all manner of industries, even the 1968 Winter Olympics in Grenoble. PERT...

How to Create a PERT Chart - ProjectManager.com

PERT is often used with one-off projects where time is more important than cost. PERT work is represented in a chart or diagram that provides a visual into all scheduled tasks in a project sequence. Project managers can then analyze how much time it will take to accomplish each task, and then forecast the overall project timeline.
