Process. Survey The first step, survey or skim, advises that one should resist the temptation to read the book and instead first go through a chapter and note headings, sub-headings and other outstanding features, such as figures, tables, and summary paragraphs. This survey step only takes 3-5 minutes, but it provides an outline or framework for what will be presented.

Automaticity / ˌ ɔː t ə m ə ' t i s i t i / is the ability to do things without occupying the mind with the low-level details required, allowing it to become an automatic response pattern or habit. It is usually the result of learning, repetition, and practice. Examples of tasks carried out by 'muscle memory' often involve some degree of automaticity. Examples of automaticity are common ...

Systems theory. Modern management is characterized by two approaches, the systems and the contingency approach. The systems approach views the organization as a total system comprised of interacting subsystems, all of which are in complex interaction with the relevant external environment (Lerman & Turner, 1992).

You should note routine changes in these pages devoted to perception. In part, I was motivated by the revision of the (now) Foley & Matlin text, which is available at the usual online sources (e.g., Amazon, Barnes & Noble). There will be Web pages specifically designed to support the revised text, but I've decided to revise my own perception pages in an effort to help colleagues who teach the ...

Jigsaw is a cooperative learning strategy that enables each student of a "home" group to specialize in one aspect of a topic (for example, one group studies habitats of rainforest animals, another group studies predators of rainforest animals). Students meet with members from other groups who are assigned the same aspect, and after mastering the material, return to the "home"
