Comprehending as competently as pact even more than new will come up with the money for each success. next to, the revelation as with ease as sharpness of this android app documentation sample can be taken as well as picked to act.

Android App Documentation Sample

An Android App Bundle is a new upload format that includes all your app's compiled code and resources, but defers APK generation and signing to Google Play.. Google Play's new app serving model, called Dynamic Delivery, then uses your app bundle to generate and serve optimized APKs for each user's device configuration, so they download only the code and resources they need to run your app.

About Android App Bundles | Android Developers

This sample shows how to implement an audio media app that works across multiple form factors and provide a consistent user experience on Android phones, tablets, Auto, Wear and Cast devices.

As of April 10, 2018, Google has deprecated GCM. The GCM server and client APIs are deprecated and will be removed as soon as May 29, 2019. Migrate GCM apps to Firebase Cloud Messaging (FCM), which inherits the reliable and scalable GCM infrastructure, plus many new features. See the migration guide to learn more.

Migrate a GCM Client App for Android to Firebase Cloud ...

Manual Installation. If you do not wish to use Maven, you can manually include the Localytics package in your project. Download the latest version of the SDK here. Unzip the archive and drag the JAR into your project's libs directory.. Update your project's app-level build.gradle to add dependencies for the Localytics JAR, Android Support v4, and Google Mobile Ads as follows.
