The true FMC was introduced with the 737-300 in 1984 this kept the performance database and functions but also added a navigation database which interacts with the autopilot & flight director, autothrottle and IRSs. The integrated system is known as the Flight Management System (FMS) of which the FMC is just one component.

This will not be a guide to flying the Boeing 737 - only to flying with FMC. But there is a lot more to flying by FMC than I have included. You will only find the most basic functions here. As English is not my first language you might find some incorrect phrases and wrong spelling - but I assume you will understand most of it anyway.
