Book Description Psychology is a science! The authors of The Horse That Won't Go Away emphasize that clear, critical thinking is the "hallmark of psychological science." Sometimes we make mental mistakes that can lead to bad decisions, poor investments, and failed social programs, but clear thinking and the scientific approach helps prevent us from fooling ourselves or others.

Developmental psychology is the scientific study of how and why human beings change over the course of their life. Originally concerned with infants and children, the field has expanded to include adolescence, adult development, aging, and the entire lifespan. Developmental psychologists aim to explain how thinking, feeling, and behaviors change throughout life.
