I have an allison mt653 in a Ford F800 behind a Cat 3208. We just picked it up as a cab and chassis and, on the way home, lost the 3-5 shifts. When ice cold it will shift through the gears, but soon loses all but 1&2. We changed the filter and fluid. The modulator linkage was not hooked up when we got it. It was a garbage packer truck. Any ideas?
