From what I have seen the sun fire sub's are a bit of a one note sub, and I'm sure the likes of the bk 400 would perform better. The only real issues I have seen with the bk sub's is the mono driver bottoms out, but this can be common on any ported sub, generally there is not much in the range of under 1000 pound but hopefully this will change, but the Pbk sub's are great value and perform ...

A lot of people are asking about these two very similar products so we decided to do a quick comparison. In our opinion the Polar H7 comes out on top simply because it is the newer model of the two and has the advantage of working with a lot more iphone apps than the H6 but there are some features of the H6 that keep it in the game (including being \$10 cheaper).
