1 Definitions. Although Skinners initial programmed instruction format has undergone many transformations, most adaptations retain three essential features: (1) an ordered sequence of items, either questions or statements to which the student is asked to respond; (2) the student's response, which may be in the form of filling in a blank, recalling the answer to a question, selecting from among ...

There are two distinct types of mating that are used by honey bees. They are respectively "Apiary Vicinity Mating" and "Drone Assembly Mating". Apiary vicinity Mating usually happens in cooler weather than most would expect and for that reason it is more local to the apiary from which the queen came. There is a high probability that mating occurs with drones from the same apiary.
