American Chemical Society: Chemistry for Life. Treating and supplying water. In early 2013, in order to save money, Flint officials decided to change the source of the city's water from the Detroit Water and Sewerage Department to the Karegnondi Water Authority (KWA). However, KWA was not ready to deliver the water, because they were in the process of building a new pipeline to bring water ...

In chemistry, pi stacking (also called π - π stacking) refers to attractive, noncovalent interactions between aromatic rings, since they contain pi bonds. These interactions are important in nucleobase stacking within DNA and RNA molecules, protein folding, template-directed synthesis, materials science, and molecular recognition, although new research suggests that pi stacking may not be ...
