Getting started with to-do list app Any.Do. What's really useful about Any.Do is that it works with the other apps on your iPhone. For example, if you have an item to remind you to e-mail, text, or call someone, the app adds a small green icon to the right of that item. Tap that green icon and it will launch your e-mail, text, or phone app to contact that person. Slick.

### **User guide. - scache.vzw.com**

A user guide or user's guide, also commonly known as a manual, is a technical communication document intended to give assistance to people using a particular system. It is usually written by a technical writer, although user guides are written by programmers, product or project managers, or other technical staff, particularly in smaller companies.

### **User guide - Wikipedia**

A guide coaches the user on how to use a product effectively and efficiently, typically by providing application examples and usage scenarios. Some marketing professionals prefer using the term "guide" instead of "manual" without regard for this distinction because "guide" sounds helpful and easier to read.
