Admittedly a prosaic concept, research impact can be roughly divided into academic and non-academic dimensions. Academic research impact is often (over)simplified to mere citations—an impactful article is well cited and utilized by others, with citation counts being offered by Google Scholar, Scopus, or ISI Web of Science.

Promoting novelty, rigor, and style in energy social ...

Multicollinearity is a common problem when estimating linear or generalized linear models, including logistic regression and Cox regression. It occurs when there are high correlations among predictor variables, leading to unreliable and unstable estimates of regression coefficients.
