The history of aviation extends for more than two thousand years, from the earliest forms of aviation such as kites and attempts at tower jumping to supersonic and hypersonic flight by powered, heavier-than-air jets.. Kite flying in China dates back to several hundred years BC and slowly spread around the world. It is thought to be the earliest example of man-made flight.

We all know the story of how Captain Chuck Yeager opened the throttles of the Bell X-1 Glamorous Glennis in October, 1947. Breaking the sound barrier was to aviation what Neil Armstrong's first step was to the space program: No matter how many others went higher or faster later, it will always be that seminal, unassailable "first" that can never be topped.
