If you are testing out your new boost capacitor, be sure you allow several minutes between startups of your A/C. This ensures that pressures within the A/C system equalize and the compressor motor will start much easier. If it's particularly hot out, the A/C system will have very high pressure on one side of the system after shutdown.

My Town & Country shuts down while I am driving. There is no pattern to when it shuts down. I may drive 20 miles with no problem and other times it will shut down 5 or 6 times within that distance. Had it to the Chrysler garage for repairs and \$1400 later the problem was still there. Two different reputable mechanics and another \$1200 later the problem still remains.
