Apple Snow Leopard Server Documentation Server Admin Tools 10.6.8 contain remote administration tools, documentation, and utilities that you can install on a Mac other than your server.

### **Apple Snow Leopard Server Documentation**

The server OS is the same as the consumer version, except that it has additional items for use on servers, and it has the server items (iCal server, mail server, ect.). If you do things that normally require heavy CPU load in your Mac than you may see a performance hit depending on what services you are using.
