## **Arch Linux Beginners Guide**

Arch Linux should run on any x86\_64-compatible machine with a minimum of 512 MB RAM. A basic installation with all packages from the base group should take less than 800 MB of disk space. As the installation process needs to retrieve packages from a remote repository, this guide assumes a working internet connection is available.

## **Installation guide - ArchWiki - Arch Linux**

This document will guide you through the process of installing Arch Linux using the Arch Install Scripts. Before installing, you are advised to skim over the FAQ. The community-maintained ArchWiki is the primary resource that should be consulted if issues arise.

## **Beginners' guide - ArchWiki**

i have been away from arch (and linux) for a couple of years... I recently decided to load it back on. There used to be a 'beginners guide' in the wiki. this was, in my humble opinion, a great doc to help navigate and learn the nuances of linux. It is no longer there. any references to it just redirects to the 'installation guide'.

## **beginners guide / Newbie Corner / Arch Linux Forums**

When I was new to Linux, Linux hadn't been around for a long time either. Everything was way harder, more confusing and more complicated, than a 2015 Arch could be. If we had new people back then, then anybody with the right mind set can start with Arch. The wiki is excellent. The install guide and beginner's guide cover most of the questions ...
