3. Methodology3.1. Target population. The ideal sample for this study consists of adults (age 18 or over). The green context under investigation is very difficult to understand and comprehend for minors because of its conceptual complexity. For this reason, adults are attributed greater ability to compare and evaluate the available choices and make a selection.

Semiotics (also called semiotic studies) is the study of sign process (). It includes the study of signs and sign processes, indication, designation, likeness, analogy, allegory, metonymy, metaphor, symbolism, signification, and communication. It is not to be confused with the Saussurean tradition called semiology, which is a subset of semiotics.. The semiotic tradition explores the study of ...
