An optical fiber connector terminates the end of an optical fiber, and enables quicker connection and disconnection than splicing. The connectors mechanically couple and align the cores of fibers so light can pass. Better connectors lose very little light due to reflection or misalignment of the fibers.

Optical fiber connector - Wikipedia

Mission Statement Twice recognized by Forbes as one of "America's Most Trustworthy Companies," Connection has made it our mission to provide customers with expert guidance, state-of-the-art tools, and exceptional knowledge to solve their technology challenges.

About Us - Connection

Preparing the space. The first thing that needed to happen was a clean out and re-painting of the elevator itself. In the end I had to take a wire wheel to the entire steel floor and bottom of the steel panel walls to get the old paint and rust off.
