AbstractPurpose: Although clinical practice guidelines can facilitate evidence-based practice and improve the health outcomes of stroke patients, they continue to be underutilised. There is limited research into the reasons for this, especially in speech pathology. This study provides the first in-depth, qualitative examination of the barriers and facilitators that speech pathologists perceive ...

Factors affecting speech pathologists' implementation of ...

Several studies have been conducted in the Caribbean region on barriers and facilitators to T2DM management, 21-28 which have identified poor access to health care, difficulty in maintaining behaviour change and negative attitudes about living with T2DM as potential barriers and support from family members as a potential facilitator.
