used Angry Birds to engage all my students and focuses on how high school precalculus students were challenged to explore Angry Parabolas, Angry Vectors, and the partnership of these mathematical concepts within Angry Projectile Motion. ANGRY PARABOLAS When exploring the Angry Parabola, I begin by launching a bird and asking a simple question such

### **Vector properties and the birds' frictionless environment ...**

"The Parabolic Edition" Red Bird, Yellow Bird, Blue Bird and Black Bird are angry with the pigs. The pigs stole the bird's eggs. The birds want their eggs back and will stop at nothing to get them back. The flight path of the birds can be modeled with a parabola. Use "x" as the distance and "y" as the height.

### **"The Parabolic Edition" - Dunkerton High School**

We have just spent a week working with quadratics in MPM2D and today I had students create their own angry birds level. The only real requirement was for them to create at least two flight paths and model them with quadratic equations. I was hoping to see how they relate the equation to the graph. This worked out better than expected.

This week I decided to try something new in my PreCalculus class. It occurred to me that the paths of the Angry Birds are parabolas and that is exactly what we were working on recently. Maybe someone had written a project that I could use and I wouldn't have to make one up! So, I googled Angry Birds math project - and

### ANGRY BIRDS THE PARABOLIC EDITION ANSWERS 1STED PDF

You can put this solution on YOUR website! Have a project with Angry Birds where you have to find the equation of a parabola for the bird's flight path in various situations. I have to pick a point at the origin and a point on the x axis for the pig to be placed and find the flight path (equation).

### SOLUTION: Have a project with Angry Birds where you have ...

Do not have them make catapults for the Angry Birds Parabola Project. This will take entirely too much time on things unrelated to the standards you are supposed to be teaching. If this is the version of the project you want to do then partner with a shop class or art class where creating the catapult will meet a standard for that teacher. Then ...
