What would you guys say is the best textbook for Organic Chemistry? ... the one she recommended to us was "Organic Chemistry" by David Klein. ... Klein is wonderful for getting the foundation of organic chemistry and really helped me excel in my more advanced chemistry courses. However, many chemistry majors might feel the need for a bit more ...

What would you guys say is the best textbook for Organic ...

Organic Chemistry by Clayden et al is a pretty good one where you can learn a lot. We used it in 3rd/4th year advanced organic chemistry undergraduate class. Also if you want to learn name reactions, "Strategic applications of named reactions in organic synthesis" by kurti and czako is great and has mechanisms for all reactions.

March's Advanced Organic Chemistry is the ultimate, all-encompassing reference manual, and I'd consider it the sine qua non of any good organic chemistry library. As an aside, McQuarrie and Atkins have both published very good physical chemistry textbooks, which in many ways have been more enlightening than any textbook specific to organic ...
