Angry Birds 1. If you find the games below a little difficult maybe you should try Angry Birds 1 - The Prequel. You can discover the properties of graph in the form  $y = a(x - h)(x - k)$  This short video will give you an idea of what this activity entails. Use the information to work out the equation of the parabola.

### **teachMathematics: Angry Birds 2**

Do not have them make catapults for the Angry Birds Parabola Project. This will take entirely too much time on things unrelated to the standards you are supposed to be teaching. If this is the version of the project you want to do then partner with a shop class or art class where creating the catapult will meet a standard for that teacher.

Angry Birds - Parabolas. The best part of the day was discussing how students knew where their vertex was. Most knew that the axis of symmetry had to be half way between the zeros and also knew the vertex was on the axis. The issues, and then real thinking came when they went to create the equation to match.
