I need to locate a quick-and-dirty guide to Struts. I am primarily a .NET developer, but I have been given an assignment involving an MVC project created with Struts. Specifically, I need to figure out where execution begins in my project when a user invokes one of the defined actions. As I am mentioned, I am a .NET developer, so I am looking ...

Quickstart Guide to Struts - experts-exchange.com

Without a flat rate manual, I don't know how a shop could quote a price on a repair. If an experienced mechanic can do the job in less time than the manual says, he wins. However, I also win, because I get my car back in service faster. I like knowing the cost of a job when I leave the car at the shop for repairs.
