Best Answer: Many times, a graphing calculator just tends to confuse people. Remember that it's just a tool to help you with your math. It depends on what kind of math you'll be doing. I've used a basic calculator calculator all my life (10 numbers, 4 operations, a sq. root key) and I've found out I confuse myself/get distracted with a really fancy calculator.

In college, you have to take an exam to get placed into math classes. Depending on how well (or how badly) you do on the test, you may be required to take a "remedial" or pre-algebra class. Ideally, you will start with something higher than that because remedial classes do not count for graduation (but you still have to pay for them).
