Accounting Information Systems 2nd Edition

Michael M. Coltman is the author of Cost Control for the Hospitality Industry, 2nd Edition, published by Wiley.

Cost Control for the Hospitality Industry, 2nd Edition ...

Information systems (IS) are formal, sociotechnical, organizational systems designed to collect, process, store, and distribute information. In a sociotechnical perspective, information systems are composed by four components: task, people, structure (or roles), and technology.. A computer information system is a system composed of people and computers that processes or interprets information.

Information economics or the economics of information is a branch of microeconomic theory that studies how information and information systems affect an economy and economic decisions. Information has special characteristics: It is easy to create but hard to trust. It is easy to spread but hard to control.
