In a typical bedroom studio, where each day you roll up your ONE guitar cable, and ONE mic cable ... Cable winders can make this tedious job a lot less painful.

Audio Cables 101: The Ultimate Guide for Home Recording

A speaker cable is an unbalanced cable that has a much heavier gauge (more wire) than most other audio cables. The reason they need heavier wire is because they carry a much higher voltage than microphone or instrument cables. Many confuse a speaker cable with an instrument cable, especially when they have a 1/4" connector on both sides.

The Ultimate Guide for Choosing Audio Cables
