A Compound Journal Entry Involves

Journal Entry Overview. A journal entry is used to record a business transaction in the accounting records of a business. A journal entry can be recorded in the general ledger, but sometimes in a subsidiary ledger that is then summarized and rolled forward into the general ledger. The general ledger is then used to create financial statements for the business.

Journal entry definition — AccountingTools

Here tow accounts have been debited and the entry involves three accounts. Hence, it is a compound entry.. Personal Books and Business Books:. It should be noted here that no private transactions of the proprietor can be recorded in the books of business.
