A style guide or style manual is a set of standards for the writing and design of documents, either for general use or for a specific publication, organization or field. The implementation of a style guide provides uniformity in style and formatting within a document and across multiple documents. A set of standards for a specific organization is often known as "house style".

Back to top. Meta-analysis. These manuscripts are systematic, critical assessments of literature and data sources pertaining to clinical topics, emphasizing factors such as cause, diagnosis, prognosis, therapy, or prevention, and that includes a statistical technique for quantitatively combining the results of multiple studies that measure the same outcome into a single pooled or summary estimate.

### **Instructions for Authors - JAMA Network**

Word Usage: Percent or Percentage? The words percent and percentage are closely related—does it matter how they are used in a sentence? Read this word usage tip to find out. The rule for using percent and percentage is straightforward. The word percent (or the symbol %) accompanies a specific number, whereas the more general word percentage is used without a number.
