I have just installed Web premium CS3 and am working on my first new project with Dreamweaver. All good so far except - it is not encoding some special characters properly. For instance if I type £50 in the design window, it appears as £50 in code view - rather than &pound50: Same thing with quotes - it does not always put the &quot; into code view.

### **strange characters encoding with CS3 | Adobe Community**

How to set up a local root folder and site structure The first thing to do when creating a new website with Adobe Dreamweaver CS3 is to define a site and identify a root folder where you will save all files, images, and other elements for the web pages.
