Abstract Algebra / Edition 3 by I. N. Herstein ...

This was the textbook for my first course in Abstract Algebra. I found it exceptionally useful for learning basic Abstract Algebra. The mathematics is presented in a very enlightening way. Now that I've moved beyond this material it is not as useful anymore. And I don't ever use this book as a reference.

The changes in the third edition of our book Abstract Algebra have dictated a few minor changes in the study guide. In addition to these, I have added a few new problems and done some editing of the solutions of old ones. I hope this edition will continue to be a help to students who are beginning their study of abstract algebra.
