I bought the ACS book, but would like to have some kind of sample exam or anything close relating to their style of exams. I ask this because I already took the ACS General Chemistry example, and I felt the study book was completely different from the actual exam that I took. I really need to score high about the 80th percentile.

Study strategy: Study hard, and it will pay off. I would probably work strictly from the notes if my time was limited.. I would probably do minimal studying from the text directly, but you would do very well to use the summary sections to help review many of the reactions. To try as many book problems and/or practice tests as possible would help.
