In this project students will graph quadratic functions based on the popular game, Angry Birds, by using equations and a Web-based graphing tool. Students will work in groups to apply the same principles to create their own game that uses quadratic functions. Students will exchange games with other groups, play the game and assess that game using a set student rating scale.

Angry Bird Project Explanation

The pigs have stolen the birds' eggs. That makes them angry, very angry. They take aim and launch themselves towards the pigs to get their revenge and reclaim their babies. Based on the classic angry birds game you will be guiding the birds to ensure that their aim is good. Enter the correct quadratic equation and birds fly on the right path and knock out the pigs.

Angry Birds = Happy Students We just finished up our Angry Birds project - integrating math and science. I know I've shared a pic or two already, but I just have to show you how they turned out! ... When we were finished, students had a reflection sheet to answer, and the final projects were marked with a checklist rubric. Such a fun summative ...

Runde's Room: Angry Birds = Happy Students

We have just spent a week working with quadratics in MPM2D and today I had students create their own angry birds level. The only real requirement was for them to create at least two flight paths and model them with quadratic equations. I was hoping to see how they relate the equation to the graph. This worked out better than expected.

Angry Birds - Parabolas - Mr. Orr is a Geek.com

"The Parabolic Edition" Red Bird, Yellow Bird, Blue Bird and Black Bird are angry with the pigs. The pigs stole the bird's eggs. The birds want their eggs back and will stop at nothing to get them back. The flight path of the birds can be modeled with a parabola. Use "x" as the distance and "y" as the height.
