Mac OS X Snow Leopard - Wikipedia

As of August 29, 2014, Google has decided to intentionally break old browsers. They say it's not a bug, it's by design here, even though Google's support page says it accepts Safari 4 as a fully supported browser. If you want Google searches to go back to the modern style, you need to change your User-Agent string.

Mac OS X Hints - A community-built collection of OS X hints

In Mac OS X, a users short name is what their home folder is named after and it's also the shorthand name for logging into the Mac either from a lock screen or a network connection with remote access through SSH and SFTP. There's various reasons that you'd want to change the user short name, but it's not just a matter of changing the name listed on a user account.

How to Change the Short Name of a User Account in Mac OS X
