Design Patent Application Guide | USPTO

The main purpose of this document is to provide the architecture design for 'Capability control list' application. This application follows the Model View Controller (MVC) architecture pattern i.e. it contains a Model (i.e. Data tier), View (i.e. a Presentation tier) and Controller (i.e. a business-logic tier). 2.

ARCHITECTURE DESIGN DOCUMENT - Computer Science

A technical specification document sets out the computing logic of your application. Technical expertise is needed to properly prepare one. If you're not a technical person, you'll need a qualified and experienced developer to craft the document for you.. It's important to note the difference between a design specification document and a technical specification document.

An Intro to Technical Specification Documents for Mobile Apps

Learn how to build and manage powerful applications using Microsoft Azure cloud services. Get documentation, example code, tutorials, and more.

Microsoft Azure Documentation | Microsoft Docs

Design for scalability. A cloud application must be able to scale to accommodate changes in usage. Begin with discrete components, and design the application to respond automatically to load changes whenever possible. Keep scaling limits in mind during design so you can expand easily in the future. Plan for subscription and service requirements.
