Analysis Of Financial Time Series

Financial analysis (also referred to as financial statement analysis or accounting analysis or Analysis of finance) refers to an assessment of the viability, stability, and profitability of a business, sub-business or project.. It is performed by professionals who prepare reports using ratios that make use of information taken from financial statements and other reports.

Financial analysis - Wikipedia

We now explore various methods for forecasting (i.e. predicting) the next value(s) in a time series. A time series is a sequence of observations y 1, ..., y n.We usually think of the subscripts as representing evenly spaced time intervals (seconds, minutes, months, seasons, years, etc.).

Time Series Analysis | Real Statistics Using Excel
